

ALUMINUM
SUNSHADES

SG7000 Series Sunshade

The D8 Aluminum SG7000 Series Sunshade is designed to provide aesthetically pleasing and economical solutions for energy conservation. By allowing the winter sunlight in and deflecting the summer sun, they help manage solar heat gain by reducing the reliance on the glass configuration alone. Other benefits include LEED credits, lower energy costs and design flexibility.

The SG7000 Series Sunshade comes in a wide variety of custom painted and anodized finishes and offers a sleek look to meet design requirements. It comes with an industry standard factory warranty.

FEATURES	RESULTS
Aluminum system	Sleek profile, long-lasting strength and durability
Integrates into Curtain Wall and Storefront systems	Design flexibility
Variety of airfoils/fascias	Variety of options to accommodate design specifications - design flexibility
