# PS9000 Series Polycarbonate Wall & Roofing System

The D8 Aluminum PS9000 Series Polycarbonate Wall and Roofing System is a multi-wall panel system that provides light control while remaining aesthetically pleasing throughout the years. It provides energy savings needed for sustainable projects, resulting in LEED points through the allowance of natural daylight into buildings.

The PS9000 comes in a wide variety of custom painted and anodized finishes and offers a sleek look that is ideal for roofing, covered walkways, open markets, service stations, entrance shades, swimming pool covers and much more.

The PS9000 Series Polycarbonate Wall and Roofing System comes with an industry standard factory warranty.

FEATURES	RESULTS
Aluminum system	Sleek profile, long-lasting strength and durability
High performance system	Superior resistance to air and water intrusion
Fast installation	Overall cost savings in the field
Double-sided UV protection	Superior ultraviolet radiation protection
Cut-to-size panels	Configurable to accommodate design specifications
Custom painted and anodized finishes	Wide variety of finishes to accommodate design specifications and customer needs

PERFORMANCE DATA	
Air @ 6.24 PSF   Per ASTM E-283	0.01 cfm/ft <sup>2</sup>
Water   Per ASTM E-331	15 psf
Light Transmission	15% - 50% depending on color
